ACADEMIC APPOINTMENTS

Tufts University

Neubauer Family Assistant Professor of Economics

2026 - present

EDUCATION

University of Pennsylvania

PhD, Economics (3.94/4.00)

2020 - 2026

Courses: Topics in Industrial Organisation, Topics in Applied Microeconomics, Development Economics, Topics in Learning Theory, Advanced Econometrics, Bandits, Reinforcement Learning and Transfer Learning

London School of Economics and Political Science

Master of Science, Econometrics and Mathematical Economics (Distinction) (Inlaks Scholar 2017-18)

2017- 2018

Courses: Adv. Microeconomics, Adv. Macroeconomics, Econometric Analysis, Contracts & Organisation

Indian Institute of Science

Bachelor of Science (Research), Mathematics (First Class 6.6/8.0) (KVPY Scholar 2013-17)

2013 - 2017

Courses: PhD-Level: Measure Theory, Topology, Commutative Algebra & Galois theory, Complex Analysis, Approximation Algorithms, Game Theory and Mechanism Design

ONGOING RESEARCH PROJECTS

Financing Competition: Evidence from SBA Loans

with Maggie Isaacson (UPenn) (Invited as FRB Summer Dissertation Fellow)

Using the universe of SBA 7(a) loans, scraped hotels data for 2000+ U.S. cities, and linked firm-level data to understand the welfare implications of government subsidized credit to service markets.

Reliability and Pricing in Cloud Computing

with James Brand (Microsoft), Juan Camilo Castillo (UPenn) and Leon Musolff (Wharton)

Evaluating the pricing and market design in a cloud computing market with congestion externalities.

Labour Market Frictions, the Organization of Labor, and Structural Change

with Ananya Kotia (LSE) and Utkarsh Saxena (Oxford) (Supported by CEPR-STEG SRG Grant)

Using newly digitized firm-level panel data and quasi-experimental variation to model structural changes of labour force, firm dynamics and aggregate growth in India.

Advertisements as Entry Barriers in Consumer Goods

with Eliana Sena (UPenn)

Using individual scanner and ad exposure data to identify the crowd-out of new products due to advertisements by incumbents.

Optimal Recommendation Systems in Monopolist Platforms

with Jaume Vives-i-Bastida (Stanford)

Modelling a monopolist platform selling non-durable goods with recommendations and deriving design rules for pricing and recommendation.

PROFESSIONAL EXPERIENCE

PhD Dissertation Fellow, New York Federal Reserve

One of four PhD fellows housed in the NY Fed over the summer to develop dissertation and present to researchers and key policy stakeholders.

Jun 2025 - Aug 2025

PhD Research Intern, Microsoft Research

Worked with James Brand

Undisclosed research on empirical market design. Re-designed internal code architecture to enable high resolution data retrieval for research.

Jun 2022 - Aug 2022

Predoctoral Fellow, Energy Policy Institute at the University of Chicago <i>Worked as a full time research assistant with Prof. Fiona Burlig.</i> Managed large datasets; used various research designs (e.g. event study, IV, RDD) to carry out data analysis; created inputs for papers & presentations. Helped design RCT with information treatments, oversaw survey logistics, and presented research to the Government of India & private stakeholders.	<i>Aug 2018 - Aug 2020</i>
Intern, Center for Study of Science, Technology, Energy & Policy (C-STEP) Conducted literature review on designing scalable systems for predicting future water demand in agriculture. Prepared large database for prediction exercises and validated models on this data. Drafted a memo for the State Government of Karnataka.	<i>Jun 2017 - Aug 2017</i>
Research Assistant, Learning Theory Lab, Indian Institute of Science <i>Advised by Prof. Shivani Agarwal</i> Studied workhorse Machine Learning methods with a focus on supervised learning: Bayesian Classifier, GMMs, Hidden Markov Models and foundations of Statistical Learning Theory.	<i>May 2014 - Apr 2015</i>

AWARDS, GRANTS AND SCHOLARSHIPS

UPenn PhD Research Grant (\$2,000 x 2) Granted for data collection on hotel industry in US cities.	<i>2023-24, 2024-25</i>
CEPR-STEG SRG Research Grant (\$18,000) Granted for the data digitization and data build for project on change of the structure of labor in India.	<i>2022-23</i>
UPenn University Fellowship Full funding to pursue a PhD in Economics.	<i>2020-25</i>
CETLI Teaching Certification Advanced training in teaching to prepare for faculty instruction.	<i>2021-25</i>
Inlaks Foundation Graduate Scholarship (£39,000) Competitive (~ 10 per year across India) full-ride scholarship to study for a Master's degree abroad.	<i>2017-18</i>
KVPY (Young Scientist) Fellowship Full-ride scholarship for high school, undergraduate studies & research awarded by the Government of India after qualifying through a competitive exam and an interview.	<i>2012-17</i>
INSPIRE Fellowship (Declined) Full-ride college award from the Government of India for securing top 0.1% nationally in high school.	<i>2013-17</i>
Indian National Chemistry Olympiad (Declined) Top 1% merit nationally, qualified for the national stage of the International Chemistry Olympiad.	<i>2013</i>

TEACHING

Instructor, Tufts University Introduction to Graduate Microeconomics (Graduate) Topics in Industrial Organization (Graduate)	<i>Fall 2026</i> <i>Fall 2026</i>
Teaching Assistant, University of Pennsylvania <i>Econ 002 Introduction to Macroeconomics</i> (Undergraduate) <i>Econ 705 Introduction to Econometrics</i> (Graduate)	<i>Fall 2023, Spring 2022, 2023, 2024, 2025</i> <i>Fall 2021</i>
Instructor, University of Chicago <i>RA Boot Camp Advanced Stata, Spatial Data in R</i>	<i>Aug 2019, 2020</i>

CONFERENCES

Dynamic Structural Econometrics Conference, University of Michigan (Presenter)	<i>August 2026</i>
Econometric Society North American Summer Meeting, Atlanta (Presenter)	<i>June 2026</i>
Econometric Society European Winter Meeting, Nicosia (Presenter)	<i>December 2025</i>
Federal Statistical Research Data Center Conference, Cornell (Presenter)	<i>September 2025</i>
International Industrial Organization Conference	<i>April 2025</i>
Johns Hopkins-NYU-UPenn Applied Microeconomics Conference (Presenter)	<i>Oct 2024</i>
Dynamic Structural Econometrics Summer School and Conference	<i>Aug 2024</i>

SERVICE

TECHNICAL SKILLS

Advanced: Julia, R, Stata

Intermediate: Python, MATLAB, ArcGIS, Java, C++, Spark
